CONFERENCING SOLUTIONS

Bridge the miles and assemble your team at virtually a moment's notice with Conferencing Solutions from EarthLink Business™. Whether you choose reservationless, operator-assisted or Web-based options, conferencing helps you reduce business travel expenses and shrink your carbon footprint.

With conferencing you can utilize a virtual meeting room to optimize your budget and maximize business productivity. Conferencing is a perfect compliment to your EarthLink Business communications solution and appears on your integrated EarthLink Business invoice. Try it, and see how fast and easy it is to connect with more people, more often.

- Web-based conferencing and operator-assisted options available
- An alternative to on-site events at a fraction of the cost
- Trade hours in transit for valuable time to complete projects

Our popular Reservationless-Plus option is a cost-effective way to instantly connect. Review current projects or manage remote locations on your timetable.

- Initiate calls 24 hours a day / 7 days a week
- No reservations required and no time limit
- No operator assistance necessary
- Leader controls all conference commands

Your Customer Experience

The EarthLink Business customer experience is a significant differentiator because we provide superior account management and proactive, personal service to every valued customer. From soliciting continuous feedback to implementing customer-centric support and solutions, our Customer Experience is the central factor in our success.

Count on your team of account professionals and sales engineers to design solutions that meet your business needs. From installation to technical support, you can always reach a live member of our service staff or access your account online via your account management portal.
